

BCDS will be offering an interactive STEAM program! All New Material...

Multidisciplinary programs offered by Creative Enrichment support children in developing their passions and building friendships as they organically cultivate knowledge and a love of learning.

STEAM STORY EXPLORERS... ALL NEW MATERIAL!

STEAM stands for Science, Technology, Engineering, Art, and Math. Each of STEAM's five subjects share a common approach and focus: they require gathering and using evidence to create knowledge or solve problems. STEAM learning happens naturally everyday as children explore, play, and try new things. When young children have the opportunity to investigate the world around them, they learn and experiment with new STEAM skills and theories. Research shows there is a positive relationship between early STEAM experiences and future success in school.

Through physical movement, dramatization of stories, and hands-on science activities, students explore essential STEAM concepts such as forms of matter, pattern recognition, shape identification, measurements, counting and more!

Dates:

Winter/Wednesdays: Jan.5, 12, 19, 26, Feb. 2, 9, 16, 23

Spring/Wednesdays: April 6, 20, 27 May 4, 11, 18, 25, June 1

Times: 10:30 - 11:15am

Ages 3 - 5 years old

Cost: \$215.00 per session

Minimum 8 Students/Maximum 10 Students
