

Bethesda Country Day School

Zany Brainy Science - STEM - All New Activities for Winter 2020

Science is the effort to discover and increase human understanding of how the physical world works. Young children begin to understand science when they are stimulated to think for themselves and explore. *Zany Brainy Science*, brought to you by Creative Enrichment, takes an investigative approach to introducing young learners to the magical world of science.

We'll perform intriguing, hands-on experiments as we cultivate children's curiosity, gain science and math knowledge, and build universal cognitive and social-emotional skills!

Activating natural curiosity, *Zany Brainy Science* encourages students to explore the physical world in which they live and make their own scientific discoveries. This investigative approach to learning makes *Zany Brainy Science* exciting and fun!

Registration is due by January 6th, 2020

Zany Brainy Science/Winter All new activities!	Fridays from 10:15 - 11:00AM	\$208 (8 week session)
